III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8131

Professional development requirements.

(11) Verification of all professional development required by this rule must be kept on file at the center or online at MiRegistry. Verification must be issued from the training organization or trainer and include the date of the course, the name of the training organization or trainer, the topic covered, and the number of clock hours. Training hours from MiRegistry also meet this rule.

One child care staff member did not have 16 hours of training documented in 2020 and 2021. The training was completed, but the documentation was not present onsite.

Technical Assistance was provided in the following areas:

- A discussion was had regarding the new maximum group size rule and how that will impact their summer program.
- Child information card completion and updates

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
