III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

The center provides AM and PM preschool childcare during the school year. The children are provided with both structured and freedom of choice learning opportunities. The center does not provide transportation, swimming, or food service. During the on-site inspection, I observed the children engaged in structured group time, freedom of choice learning, and meal time. I provided a rule review regarding substitute teacher requirements.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
