**III. DESCRIPTION OF FINDINGS & CONCLUSIONS**

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8143

**Children's records.**

**(11) A center shall maintain an accurate record of daily attendance at the center that includes each child's first and last name and each child's arrival and departure time. Electronic records may be used. If electronic attendance records are used, then they must be available to the department at the time of an inspection. If the electronic attendance records are not available during an on-site inspection, then the center is in violation of this rule.**

The center had a daily attendance record that included the child's first and last names. However, the daily attendance record was lacking each child's daily arrival and departure times.

**IV. RECOMMENDATION**

Upon receipt of an approved corrective action plan, I recommend issuance of a regular license to this child care center.
