Dear Ms. Young:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 09/16/2022. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

During my onsite inspection at the child care center I was able to observe all classrooms to go outside for outdoor play. The infants and toddlers participated in sidewalk play and a walk, while the older toddlers were having free play in the fenced in areas. The children were well supervised and the child care staff members were interacting positively with the children. I was able to review required interim documents and there were no concerns.

I spoke with Ms. Young and program director, Bethany Kulesza, in regards to programming and continued staffing plans. I also explained that when I arrived at the child care facility there was a child in the bathroom without an adult in the building. A child care staff member came into the center shortly after my arrival, but even preschoolers need supervision inside, Ms. Young agreed to remind staff of supervision requirements.

As a result of the inspection, I did not find any rule or law violations.

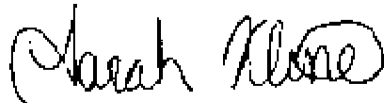

<b>During calendar year 2021:</b>	<b>Total</b>
