III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

Technical Assistance Provided:

- Ms. Silvers and I spoke about reminding child care staff members to have children wash their hands directly before snack. I observed one student wash their hands for snack then go play for a bit then go back to have snack.
- The fire inspection dated 11/21/2021 indicated that once the construction was completed a follow up inspection needed to be conducted, Ms. Silvers indicated on 9/26/2022 that she is scheduling a follow up inspection.

IV. RECOMMENDATION

I recommend no change in license status.
