Dear Ms. Young:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 05/16/2022. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

During my onsite inspection the child care children were lined up with the child care staff members to head outside. The caregivers were engaging in positive, peaceful interactions with the children as they waited to go outside with their lunches. The weather was nice and the children were so excited to eat outside, the caregivers indicated that they try to get outside for lunch time as much as possible. The child care was free of all hazards.

The violations that were found are:

R 400.8131 Professional development requirements.

(12) When the department of licensing and regulatory affairs or the department of education publishes a notice that a new health and safety update document or a new health and safety update training activity has been published on MiRegistry, the licensee shall ensure that all personnel read and acknowledge the document or complete the activity within 6 month of the notice.

Child care staff members did not complete the health and safety refreshers required by the department.

As a result of the inspection, I did not find any rule or law violations.

During calendar year 2021:	Total
Number of serious injuries that occurred in facility.	0
Number of deaths that occurred in the facility.	0
Number of substantiated cases of abuse and/or neglect of a child that occurred at the facility.	0
