Dear Ms. Pittman:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 10/26/2022. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

During my onsite inspection children in care were getting the opportunity to shop the store set up by child care staff members. During programming when children are on task, kind to peers, etc. they receive blue tickets. Every so often child care staff members set up a store that included snacks and trinkets that the children can shop with their blue tickets.

The child care staff members were engaging in positive interactions with the children in care. Program director, David Greeno was working with the children to select their wintertime activity. They had the choice between learning gold skills indoor or learning to snow board one day a week. There were no safety hazards or concerns noted at the child care center.

Some of the children in programming were getting ready to eat dinner as I was leaving, they did not wash their hands directly before getting food. This was discussed as technical assistance with Mr. Greeno who stated the child care staff know this but may have been out of practice due to fall break.

As a result of the inspection, I did not find any rule or law violations.

During calendar year 2021:	Total
Number of serious injuries that occurred in facility.	0
Number of deaths that occurred in the facility.	0
Number of substantiated cases of abuse and/or neglect of a child that occurred at the facility.	0
