RE: License #: DC610400471

Dear Ms. Kolbe:

This letter is a follow-up to the Department’s findings regarding the interim inspection conducted at your center on 04/15/2021. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

During the onsite inspection, I observed one classroom of tuition preschool. There were five children present with one child care staff member. The children were engaged in various activities during choice time. I observed the staff member interacting with the children and engaging in imaginative play with them. The staff member showed me an activity the children had completed earlier in the day of writing their name on a large piece of paper, then gluing birdseed on top of the writing. The staff member provided appropriate supervision to the children and appeared bonded with them.

As a result of the inspection, I did not find any rule or law violations.

During the exit conference, technical assistance/consultation was provided regarding the following:

- While reviewing child information cards, some appeared to have the allergy section completed by a staff member. I advised Ms. Kolbe that it is required that parents complete all sections of the child information card except for the date of admission section.

During calendar year 2020:	Total
Number of serious injuries that occurred in facility.	0

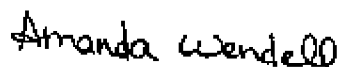

Number of deaths that occurred in the facility.	0
Number of substantiated cases of abuse and/or neglect of a child that occurred at the facility.	0
