The Stage is 18ft X 32ft, providing a total of 576 square feet. This accommodates a capacity of 16 school age children.

The Media Center is (26ft X 77ft) + (16ft X 25ft), providing a total of 2,402 square feet. This accommodates the requested capacity of 54 school age children.

The total space is sufficient for a center capacity of 250 school age children.

There are 25 hand washing sinks, 24 toilets, and 2 urinals located throughout the building available for child care use. This supports the center's capacity.

The rooms are furnished with a variety of developmentally appropriate equipment. There is an adequate amount of equipment to support the capacity increase.

An environmental health inspection was completed at the time of original issuance and school fire safety inspections have been completed as required. A lead risk hazard assessment is not required.
