III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8315 Food and equipment storage.

(1) Each refrigerator must have an accurate working thermometer indicating a temperature of 41 degrees Fahrenheit or below.

The refrigerator in the infant room did not have a thermometer.

R 400.8380 Maintenance of premises.

(5) There must be no flaking or deteriorating paint on interior and exterior surfaces or on equipment accessible to children.

Flaking paint was evident on exterior equipment accessible to children. There was flaking paint on playground equipment.

A corrective action plan was requested and approved on 06/27/2023. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
