Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the on-site inspection, I observed children in care engaged in a variety of developmentally appropriate activities, including painting, outdoor play, and dramatic play. Also, I observed large group time which included singing and story time. I also observed toileting, hand washing, meal service, and nap time. The child care staff members' interactions with the children were positive and nurturing. They were attentive to the children's needs.
