III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8143 Children's records.

(4) When a child under school-age whose immunizations were not up-to-date at the time of enrollment has been in attendance for 4 months, an updated certificate showing completion of all additional immunization requirements as specified by DHHS must be kept on file, unless there is a signed statement by a licensed health care provider stating immunizations are in progress.

Nine of the 15 children's records reviewed contained immunizations that were not up to date.

R 400.8143 Children's records.

(7) Physical evaluations must be updated as follows:
(a) Yearly for infants and toddlers.
(b) Every 2 years for preschoolers.

Seven of the 15 children's records reviewed did not have an updated physical (health appraisal).

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
