Dear Ms. Lynam:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 05/11/2023. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

During the on-site inspection, I observed children in care engaged in a variety of developmentally appropriate activities, including outdoor play, individual work with drawing, blocks, puzzles, shape recognition, and counting. I observed large group time which included story time and singing activities. I also observed toileting, handwashing, meal service, and nap time. The child care staff members' interactions with the children were positive and nurturing. They were attentive to the children's needs.

As a result of the inspection, I did not find any rule or law violations.

**Technical Assistance and Consultation were provided for the following:**

- First and last name labeled on medications, including ChapStick.
- One medication permission form per medication.
- More mulch under large outdoor play structure.
- Centers can have residential non-climbing equipment such as water tables, picnic tables, play houses (with no attached slides, elevated play surfaces, etc.), but this type of equipment must be kept out of the use zone for other playground equipment.
- Replace flickering light bulb in Preschool Kindergarten 1 room.
