II. Purpose of Addendum

On 04/02/2022 licensee designee Allison Piasecki requested an increase in capacity from 40 to 44 preschool children.

III. Methodology

04/02/2022 Modification request received

04/28/2022 Inspection completed on-site.

IV. Description of Findings and Conclusions

The terms of the original license have been modified on May 02, 2022, August 17, 2018, and August 10, 2016.

The preschool classroom measures (16ft X 6ft) + (23ft X 15ft) + (21ft X 23ft) + (11ft X 15ft), providing a total of 1089sqft. This accommodates the requested capacity of 28 preschool children.

The Jr Kindergarten room is (24ft X 22ft) + (9ft X 5ft), providing a total of 573sqft. This accommodates the requested capacity of 16 preschool children.

The total space is sufficient for a overall center capacity of 44 children ages 2 ½ to 6 years old.

There are 7 sinks and 5 toilets available for the children to use. This supports the center's capacity.

There is an adequate amount and variety of developmentally appropriate equipment to support the capacity increase.

A fire safety inspection was completed on 03/23/2022 and an environmental inspection was completed on 09/10/2015.

A lead risk hazard assessment is not required because the building was built after 1978.

V. Recommendation

I recommend an increase in the center's overall capacity from 40 to 44 preschool children.

Licensing Consultant
