## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

At the time of the on-site inspection I provided Ms. Piasecki with technical assistance regarding the following Child Care Centers Licensing Rules:  
 R400.8125(4) Staff; volunteer; requirements.  
 R400.8143(1) Children's records.  
 R400.8173(9) Equipment.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

**R 400.8152                    Medication; administrative procedures.**

**(2) A child care staff member shall give or apply medication, prescription or nonprescription, only with prior written permission from a parent.**

The center did not have written permission from a parent for a prescription medication and nonprescription medication.

#### **IV. RECOMMENDATION**

Upon receipt of an acceptable corrective action plan, I recommend issuance of a regular license to this child care center.
