Dear Mr. Lloyd:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 05/16/2023. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

During the on-site inspection, I reviewed children's records and child care staff members' records. I observed children in care engaged in a variety of developmentally appropriate activities, including free play with Legos, blocks, the sand table, dramatic play, and outdoor play. I observed large group time which included story time. I also observed toileting, hand washing, meal service, and nap time. The child care staff members' interactions with the children were positive and nurturing. They were attentive to the children's needs.

The violations that were found are:

R 400.8131

Professional development requirements.

(12) When the department of licensing and regulatory affairs or the department of education publishes a notice that a new health and safety update document or a new health and safety update training activity has been published on MiRegistry, the licensee shall ensure that all personnel read and acknowledge the document or complete the activity within 6 month of the notice.

One of the four child care staff members (C.W.) did not complete the 2021 MiRegistry Refresher training.

Technical Assistance and Consultation were provided for the following:

- Centers can have residential non-climbing equipment such as water tables, picnic tables, play houses (with no attached slides, elevated play surfaces, etc.), but this type of equipment must be kept out of the use zone for other playground equipment.
