II. Purpose of Addendum

On 01/08/2023 licensee designee Charlotte Jackson requested to add additional space in the toddler classroom and to increase the capacity.

III. Methodology

01/02/2023 Inspection completed Fire Safety: A

01/08/2023 Modification Request Received

01/17/2023 Inspection completed on-site.

IV. Description of Findings and Conclusions

The terms of the original license have been modified on 01/24/2023.

The following rooms are approved:

The infant room is (5ft X 5ft) + (20ft X 10ft); providing a total of 245 square feet. This accommodates the requested capacity of 5 children ages 6 weeks – 18 months.

The toddler room is (5ft X 9ft) + (12ft X 13ft) + (13ft X 15ft) + (8ft X 7ft) + (6ft X 10ft) + (12ft X 13ft); providing a total of 668 square feet. This accommodates the requested capacity of 14 children ages 1 – 2 ½ years old. (Note the maximum group size for children under 2 ½ years old is 12, therefore if more than 12 children are present there must be 2 groups with 2 lead caregivers).

The preschool 1 room is (19ft X 33ft) + (13ft X 9ft); providing a total of 744 square feet. This accommodates the requested capacity of 22 children ages 2 ½ - 6 years old. The room may be used by school age children for after school or summer programs. (Note if children age 2 ½ years old are present the maximum group size is 16).

The preschool 2 room is (28ft X 17ft) + (8ft X 10ft); providing a total of 556 square feet. This accommodates the requested capacity of 16 children ages 2 ½ - 6 years old.

The total space is sufficient for a total center capacity of 57 children infant through school age.

There are a total of 6 sinks and 5 toilets located throughout the center. This supports the center's capacity.

An Environmental health inspection was completed of all areas at the time of the original issuance and a fire safety inspection was completed on 01/02/2023. A lead risk assessment was completed on 01/10/2017 and no lead risk hazards were identified.

V. Recommendation

I recommend the addition of space in the toddler room as approved child use space and a capacity increase from 54 to 57 children, birth through school age.
