IV. Description of Findings and Conclusions

The following rooms are approved for use:

Classroom 1 measures 30.5 ft. X 22.10 ft. for a total of 674 square feet. This is sufficient space for 19 children ages 2 ½ years to 3 ½ years.

Classroom 2 measures 20.11 ft. X 23.2 ft. for a total of 466 square feet. This is sufficient space for 9 children ages 18 months to 2 ½ years.

Classroom 3 measures 24.5 ft. X 24.4 ft. for a total of 597 square feet. This is sufficient space for 12 children birth to 18 months.

Classroom 4 measures 22.3 ft. X 25.7 ft. for a total of 573 square feet. This is sufficient space for 16 children ages 4 ½ years to 5 years.

The center is adequately equipped with enough age-appropriate equipment to support the capacity. This includes books, dramatic play items, science materials, puzzles, math, art, and crafts materials.

The center has 6 toilets, 1 urinal, and 15 sinks. There are sufficient sinks and toilets to accommodate a capacity of 56.

Fire safety inspections was completed on 12/22/2021 and the lead hazard risk assessment was not required because the building was constructed in 2008.

V. Recommendation

I recommend approval to change the age range in classroom 2 and 3 to infant and toddlers and to decrease the center's capacity from 65 to 56 children birth to age to age 5.
