IV. Description of Findings and Conclusions

This child care center is housed in a wing of the Georgetown Christian Reformed Church. The rooms approved are on the main and basement levels of the building.

The terms of the license have been modified on 11/01/2012, 09/01/2016, and 07/03/2023.

The following rooms are approved as child use space:

- Room 101 A/B measures approximately 15 ft. X 23 ft. providing a total of 345 square feet. This will accommodate 7 children under the age of 30 months.
- Room 103 A/B was previously measured and approved: providing a total of 410 square feet. This will accommodate 8 children under the age of 30 months.
- Room 104 A/B was previously measured and approved: providing a total of 421 square feet. This will accommodate 12 children over the age of 30 months.

- Room 105 A/B was previously measured and approved: providing a total of 286 square feet. This will accommodate 8 children over the age of 30 months.
- Room 106 A/B measures approximately 22 ft. X 13 ft. providing a total of 286 square feet. This will accommodate 6 children under the age of 30 months.
- Room 107 measures approximately 15 ft. X 13 ft. providing a total of 195 square feet. This will accommodate approximately 4 children under the age of 30 months.
- Room 108 (A/B) measures approximately 32 ft. X 13 ft. providing a total of 416 square feet. This will accommodate 8 children under the age of 30 months.
- Room L06B measures approximately 27 ft. X 13 ft. providing a total of 351 square feet. This will accommodate 10 children over the age of 30 months.
- The courtyard measures approximately 15 ft. X 13 ft. proving a total of 1,224 square feet. This will accommodate 35 children over the age of 30 months or 24 children under the age of 30 months.
- The large activity room was previously measured and approved: providing a total of 2,974 square feet. This will accommodate 85 children over the age of 30 months or 59 children under the age of 30 months.

The licensee is aware of staff to child ratio and maximum group size requirements for all ages of children in all well designated areas and playground. And that the staff to child ratio and maximum group size is determined by the youngest child in the group.

There is an outdoor play area that includes installed equipment and a natural playground. The materials on the natural playground are not in the use zones of other playground equipment. All the equipment has been inspected and approved for child use.

The berm with retaining wall on the natural playground is not approved for children to climb on or access. The children can use the tunnel under the berm.

The licensee designee has agreed that children will not climb the retaining wall or walk on top of the berm.

There is an adequate amount of equipment and materials in all the child approved spaces.

There are a total of 9 toilets and 8 sinks available for children's use. This accommodates the capacity of 120 children.

The total space is sufficient for a total building capacity 120 children aged birth to 12 years.

An "A" rated environmental health inspection was completed on 07/20/2016. An "A" rated fire inspection was completed on 06/13/2023. A playground inspection approving equipment was completed on 06/23/2023.

Terms:

The center is approved for a total capacity of 120 children between the ages of birth to 12 years.

The center offers part-time and full-time programming year round.

This child care center provides pre-packaged or ready to eat breakfast and snacks. Parents are expected to provide lunch for the children.

The center does not provide transportation or swimming.

V. Recommendation

I recommend approval of the newly installed equipment and the natural playground.
