RE: License #: **DC700386444**  
**Roundabouts Playschool**  
**9370 US 31**  
**West Olive, MI 49460**

Dear Ms. Nyhoff:

Attached is the Addendum to the Original Licensing Study Report for the above referenced facility.

Please review the enclosed documentation for accuracy and contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (616) 356-0183.

Per MCL 722.113g, this report must be filed in your licensing notebook.

Sincerely,

A handwritten signature in cursive script that reads "Rachel Arens".

<b>Capacity:</b>	78
<b>Program Type:</b>	CHILD CARE CENTER

## **II. Purpose of Addendum**

On 01/24/2023 licensee Kristy Nyhoff requested an increased capacity for her infant room and portable classroom.

## **III. Methodology**

01/24/2013 – Modification Request Received

## **IV. Description of Findings and Conclusions**

Roundabouts Playschool is a full component center which offers care for infants, toddlers, preschool and school aged children. The terms of the original license have been modified on 07/24/2017, 07/28/2020 and 12/09/2021 and 01/24/2023.

The Infant room was previously capped at 8 infants, per the program's request. It measures approximately 25ft x 29ft, for a total of 725 square feet. This is sufficient space for a maximum capacity of 12. The licensee understands that they can only have enough infants as they have cribs available, at any given time.

The portable classroom was previously capped at 18 children, per the program's request. It measures approximately 24ft x 36ft, for a total of 864 square feet. This is sufficient for 25 children over 2.5 years of age. The program has requested a capacity of 22 children.

Previously approved spaces:

The Weeble Room measures approximately 13ft x 37ft, for a total of 481 square feet. This is sufficient space for the requested capacity of 8 toddlers. If there are mixed ages present in the Weeble room, the ratio will be determined by the youngest child present.

The Toddler Room measures approximately 17.5ft x 37ft, for a total of 647 square feet. This is sufficient space for 12 toddlers. If there are mixed ages present in the Toddler room, the ratio will be determined by the youngest child present.

The Preschool room measures approximately 34ft x 25ft, for a total of 850 square feet. This is sufficient space for 24 children, 30 months of age and above.

The entryway measures approximately 72ft x 7 ft, for a total of 504 square feet. At this time, this will be a space for families to enter and exit the main building, and where children will hang their coats and backpacks. Therefore, it is not included in the overall capacity of the license.

The multipurpose room measures approximately 18ft x 34ft, for a total of 612 square feet. This is sufficient space to accommodate up to 11 children under 2.5 years, or 17 children over 2.5 years of age, at any one time. Ratio should be determined by the youngest child present. This room will be used for as a multipurpose room, so it does count toward the overall capacity of the center.

The overall capacity of the center is 78 children. In the main building, there are a total of 5 sinks, 4 toilets and 2 urinals. The new portable includes a total of 2 toilets and 2 sinks. Overall there are a total of 7 sinks, 6 toilets and 2 urinals, which supports the center's capacity of 78.

The center's main building does not have a fire alarm system installed, and so the capacity in the main building cannot exceed 60. If the portable classroom is removed at any time, the overall center capacity must be changed back to 60.

## V. Recommendation

I recommend the increased capacity to 12 in the Infant room and 22 in the portable classroom, which was allowable due to the available square footage in each room.

01/24/2023
