Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the unannounced onsite inspection, I observed the caregivers providing direct supervision of children during large gross motor activities in the gym upon my arrival. I observed children running, jumping, playing with balls and hula hoops. I observed children encouraged to use the bathroom before rest time. I observed the caregivers providing direct supervision of children napping during rest time. I observed children engaged in literacy activities including reading alone and large circle time. I observed caregivers, parents, and children during pick up time. Caregiver interactions with children were observed to be positive and nurturing. Required records were organized and readily available for review.
