Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the onsite inspection, I observed children engaged in large circle time which involved literacy activities. I observed hand washing and snack time. I observed children engaged in math and science activities at the round table. I observed the caregiver, parents and children during pick up time. Caregiver interactions with children were observed to be positive and nurturing. Required records were organized and readily available for review.

As a result of the renewal inspection(s) on 4/25/2024, licensing consultant Mary Smith did not find any rule or law violations. A regular license will be issued.
