III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the on-site inspection, I observed child care staff member providing direct supervision to children in care during outside play, free play activities. I also observed parent and children during parent pick up. Child care staff members' interactions with children in care was positive and age appropriate. Records were organized and readily available for review.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
