## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the onsite inspection, I observed child care staff members providing direct supervision to children in care during naptime, while children engaged in free play activities using playdoh, and snack time. Children appeared happy and well-bonded to child care staff members. Child care staff members' interactions were positive,

nurturing, and age-appropriate. Records were organized and readily available for review.

The facility is in compliance with all applicable rules and statutes.
