**III. DESCRIPTION OF FINDINGS & CONCLUSIONS**

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

Due to the current situation, learning for PreK students is virtual only. The before and after school program is not operating at this time. There were no issues with the classroom observed. Mr. LeRoux was reminded to check the enrollment form that is completed prior to students attending the program for missing information that is required by child care licensing rules.

#### IV. RECOMMENDATION

I recommend issuance of a regular license to the child care facility.
