Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

As a result of the renewal inspection(s) on 5/9/2024, licensing consultant Takiyah Jackson did not find any rule or law violations. A regular license will be issued.

During on-site inspection, I observed child care staff members providing direct supervision to children in care. I observed outdoor play and parent pick-up. Child care staff members provided positive and nurturing interactions to children in care. Records were organized and readily available for review.
