III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the onsite inspection, I observed child care staff members provide direct supervision to children in care during snack time, free play activities including music, arts and craft, snack time, and physical activity. Child care staff members were observed providing positive re-direction when needed with children. Child care staff member’s interactions were nurturing and age appropriate. There was a happy and well-bonding relationship between children in care and child care staff members.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

Choose one:

I recommend issuance of a regular license to this child care center.
