Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the onsite inspection, I observed middle school children engaged in arts and crafts activities upon my arrival. I observed children arriving from the elementary school for the after-school program with child care staff who walked them from the school to the center that is located on the same property. I observed hand washing and snack time. I observed children engaged in show and tell and providing a recap of their day with the other students and child care staff. I observed children engaged in free play activities. I observed parents, caregivers, and children during pick up time. Caregiver interactions with children were observed to be positive and nurturing. Required records were organized and readily available for review.

As a result of the renewal inspection(s) on 5/15/2024, licensing consultant Mary Smith did not find any rule or law violations. A regular license will be issued.

If you have any questions regarding the report, please contact licensing consultant, Mary Smith, at (989) 780-0924. In the event that Mary Smith is not available and you need to speak to someone immediately, please contact the Child Care Licensing Bureau at 517-284-9730.
