III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the on-site inspection, I observed children eating lunch upon my arrival. I observed caregivers providing direct supervision to children napping during rest time. I observed safe sleep practices being utilized in the infant room. I observed the infant caregivers feeding infants on demand. I observed diapering and proper handwashing techniques being utilized for infants and staff. I observed school-age children engaged in literacy and arts and crafts activities. I observed outdoor play activities. I observed hand washing and snack time. I observed caregivers, parents,

and children during pick up time. Caregiver interactions with children were positive and nurturing. Staff and child records were organized and readily available.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
