III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the on-site inspection, I observed children initiated in free play activities upon arrival. I observed children engaging in literacy activities, social development, and practicing social interaction skills. I observed caregivers providing direct supervision of children resting during nap time. I observed hand washing and snack time. I observed diapering and proper handwashing techniques being utilized. I observed children engaged in arts and crafts activities. I observed infants engaged in tummy time and feeding. I also observed caregivers, parents, and children during pick up

time. Caregiver interactions with children were positive and nurturing. Staff and child records were organized and readily available.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
