III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the on-site inspection, I observed caregivers and children engaged in large motor activities during outdoor play upon my arrival. I observed children engaged in fine motor activities including drawing and coloring. I observed hand washing and lunch time. I observed caregivers providing direct supervision of children resting during nap time. I observed children engaged in free play activities. I observed children engaged in literacy activities during large circle time. I observed caregivers, children, and parents during pick up time. Caregiver interactions with children were positive and nurturing. Staff and child records were organized and readily available.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
