III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the on-site inspection, I observed caregivers providing direct supervision of children napping during rest time. I observed children initiated in free play activities while practicing imaginative play and social interaction skills. I observed literacy activities during large circle time. I observed children during small motor activities which included coloring and painting during arts and crafts time. I observed hand washing and snack time. I observed caregivers, parents, and children during pick up

time. Caregiver interactions with children were positive and nurturing. Staff and child records were organized and readily available.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
