Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the onsite inspection, I observed caregivers providing direct supervision of children engaged in outdoor play activities upon my arrival. I observed children engaged in large gross motor activities which included running, jumping and racing outside. I observed children engaged in large circle time which included literacy activities. I observed children being supervised while using the bathroom and using proper handwashing techniques. I observed caregivers and children during family style lunch. I observed the children transitioning into rest time. I observed the caregivers providing direct supervision of children napping during rest time. Caregiver interactions were observed to be positive and nurturing. Required records were organized and readily available for review.

As a result of the renewal inspection(s) on 2/14/2024, licensing consultant Mary Smith did not find any rule or law violations. A regular license will be issued.
