Dear Ms. Harris:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 01/17/2023. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

During the on-site inspection, I observed children being directly supervised napping during rest time upon arrival. I observed older children engaged in quiet activities while others were resting. I observed diapering and handwashing. I observed infants being provided emotional support while being fussy. Caregiver interactions with children were positive and nurturing. Required records were organized and readily available for review.

Technical Assistance was provided regarding R400.8170 (11) as the center recently installed play equipment that requires it be inspected by a certified playground safety inspector. The licensee has agreed that the children will not utilize the equipment until a certified playground safety inspection is completed and received by the department.

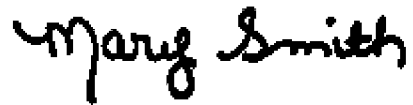

As a result of the inspection, I did not find any rule or law violations.

You can find a copy of this inspection letter and any associated corrective action plans on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when inspection letters are completed can be found under [Overview of Licensing Reports](#).

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at 517-284-9730.

Per MCL 722.113g, this report and any related corrective action plans must be filed in your Licensing Notebook.

Sincerely,
