III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8152

Medication; administrative procedures.

(3) All medication must be in its original container, stored according to instructions, and clearly labeled for a named child, including all nonprescription topical medications described in subrule (8) of this rule.

I observed there to two different nonprescription medications, an allergy medication and Benadryl, in a classroom. However, the medications were not labeled for a child.

R 400.8152

Medication; administrative procedures.

(4) Prescription medication must have the pharmacy label indicating the physician's name, child's first and last name, instructions, name and strength of the medication, and must be given according to those instructions.

I observe there to be an epi pen, as well as a diabetic pen, both of which are doctor prescribed medications, that did not meet the requirement of the rule. They did not have the pharmacy label that indicated the physician's name, child's first and last name, instructions, name and strength of medication.

A corrective action plan was requested and approved on 12/14/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
