RE: License #: DC760405243
Croswell Little Bloomers
172 Davis Street
Croswell, MI 48422

Dear Terri VanCamp:

Attached is the Addendum to the Original Licensing Study Report for the above referenced facility.

Please review the enclosed documentation for accuracy and contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (810) 787-7031.

Per MCL 722.113g, this report must be filed in your licensing notebook.

Sincerely,

A handwritten signature in black ink that reads "Lisa Gundry".

Licensee Telephone #:	(810) 404-4711
Administrator/Licensee Designee:	Terri VanCamp
Name of Facility:	Croswell Little Bloomers
Facility Address:	172 Davis Street Croswell, MI 48422
Facility Telephone #:	(810) 404-4711
Capacity:	39
Program Type:	CHILD CARE CENTER

II. Purpose of Addendum

The purpose of this addendum is to add use space, clarify use space, and increase the capacity from 30 to 39.

III. Methodology

06/26/2023- Received modification request to add capacity by renovating the garage into a GSRP room. In addition, the rest of the center will receive some renovations so the rooms will change.

09/07/2023 – Inspection completed onsite.

IV. Description of Findings and Conclusions

The original terms of the license were modified on September 07, 2023.

Croswell Little Bloomers is located in a residential area in a two-story building in Croswell.

The building consists of four classrooms, a kitchen and the office. The office and kitchen will not be used for child care.

On September 07, 2023, I inspected the large GSRP room, which was converted from a two car garage into child use space. This room is located on the south side of the home.

- The GSRP room measures 23 ft. x 23 ft., providing a total of 529 square feet. This space is sufficient for 15 children ages 2.5 and above. The licensee designee understands that if there is a mixed age group in this room, that the ratio is based on the ratio requirements of the youngest child.

The following areas were also inspected and approved:

- The Preschool room measures 15 ft. x 15 ft, 3 ft x 8 ft., and 7 ft. x 7 ft., providing a total of 298 square feet. This space is sufficient for 9 children ages 2.5 and older. The licensee designee understands that if there is a mixed age group in this room, that the ratio is based on the ratio requirements of the youngest child.
- The middle room (located near the kitchen) measures 18 ft. x 13 ft., providing a total of 187 square feet. This space is sufficient for 7 children ages 2.5 and older. The licensee designee understands that if there is a mixed age group in this room, that the ratio is based on the ratio requirements of the youngest child.

- The infant/toddler room is divided into two rooms. The infants will sleep on one side, and the play area is located on the other side. The south side room measures 12 ft. x 15 ft. and 4 ft. x 8 ft., totaling 212 square feet. The north side of the room measures 12 ft. x 15 ft, providing 180 square feet. This is a total of 392 square feet. This space is sufficient for 8 infants/toddlers. The licensee understands that they must have one crib for each child younger than 12 months of age in attendance at the center at any given time. This room has a sink that must be exclusively for handwashing purposes.

The total space is sufficient for a center capacity of 39 children, aged birth to 12 years based on square footage in the center. There is a total of three toilets, and four handwashing sinks.

There is a large fenced outdoor play area located adjacent and behind the building. to the building. There is a second fenced play area behind the center. There are no elevated play structures.

The center provides breakfast, lunch and snacks. The center does not provide transportation or swimming.

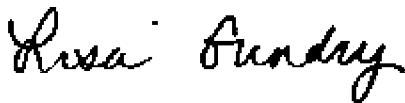

An environmental health inspection was completed and approved on September 09, 2023. A fire inspection was completed and approved on September 05, 2023 . A lead hazard risk assessment was completed on August 22, 2023.

Terms:

The center is approved for a total capacity of 39 children age birth through 12 years.

V. Recommendation

I recommend approval of the GSRP room. I recommend an increase in capacity from 30 to 39.

09/12/2023
