Facility Telephone #:	(810) 404-5256
Capacity:	64
Program Type:	CHILD CARE CENTER

II. Purpose of Addendum

The licensee is requesting to add Room 311 as child use space. This will increase the capacity from 42 to 64.

III. Methodology

09/19/2022 - Received modification request to add Room 311.

10/012/2022 - Inspection competed onsite.

IV. Description of Findings and Conclusions

The original terms of the license were modified on January 27, 2023.

Auntie Em's Too is located in Peck Community Schools. The center consists of three classrooms, the media center and the gymnasium. The following classrooms are approved for use space.

- Room 313 measures 31 ft. X 13 ft. providing a total of 403 square feet. This allows for a capacity of 8 children aged birth through 2.5 years of age.
- Room 314 measures 29 ft. X 27 ft. providing a total of 783 square feet. This allows for a capacity of 16 children aged 2.5 years to 12 years of age.
- Room 312 measures 13 ft. X 25 ft. providing a total of 325 square feet. This allows for a capacity of 9 children aged 2.5 years to 12 years of age.
- The gymnasium measures 100 ft. X 74 ft. providing a total of 7,400 square feet. This accommodates 211 children aged 2 ½ to 12 years of age.
- The media center measures 65 ft. X 29 ft. providing a total of 1,885 square feet. This accommodates 54 children aged 2 ½ to 12 years of age.

The gymnasium and the media center will not be counted in the center capacity as these rooms will be utilized by all of the children at the center.

There are a total of 5 toilets and 7 handwashing sinks. Two toilets and two sinks are located between Room 313 and Room 314. There is a hand washing sink

located in Room 1 near the infant diapering area. There are also additional toilets off of the gymnasium, the boy's bathroom has two urinals, one toilet and two sinks and the girl's bathroom has three toilets and two sinks.

The outdoor play area will occur in the center of the school building. The area is completely encompassed by the buildings. There are trees located in the area to provide shade during the summer months. There are no water hazards. There are no elevated play structures in the outdoor play area and therefore a playground safety assessment was not necessary. Direct supervision will be provided at all times.

The center provides breakfast, lunch and a snack. The center does not provide transportation or swimming.

An environmental health inspection was completed on October 28, 2021. A school certification signed statement was completed by the school superintendent on September 15, 2021. A lead hazard risk assessment was completed of all areas on July 02, 2015, by a certified lead risk assessor. The assessment was completed by the school district and they agreed to share this assessment with the licensee.

Melody Vanconant is the approved program director. Ms. Vanconant qualifies under an approved variance for licensing rules R 400.8113 and (13).

On September 22, 2022, I inspected Room 311. This will be a shared space with another licensed center located in the school building. The room will not have overlapping hours so each center will utilize the room separately. The space is approved as a child use space and will be used for the enrolled children.

- Room 311 measures 28 ft. X 28 ft., providing a total of 784 square feet. This space accommodates 22 children aged 2 ½ to 12 years.

Terms:

The center is approved for a total capacity of 64 children ages birth to 12 years of age.

V. Recommendation

I recommend adding Room 311 for children ages 2.5 and older. This will increase the capacity of the center from 42 to 64.
