III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection, I observed children participating in large group literacy, having lunch, enjoying outdoor play, preparing for rest time, and learning in child-directed activities. The program is well equipped, has spacious rooms, and provides a safe educational environment for preschool children.
