III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8176 Sleeping equipment.

(7) Documentation from the child's health care provider is required if a child has a health issue or special need that requires the child to sleep in something other than a crib or porta-crib for infants or toddlers, or cot or mat for toddlers. The documentation must include specific sleeping instructions and time frames for how long the child needs to sleep in this manner, including an end date.

There was a wedge placed in a child's crib in the infant classroom. The center had not been provided from the physician a medical note stating child needed the wedge.

R 400.8380 Maintenance of premises.

(3) Roofs, exterior walls, doors, skylights, and windows must be weathertight and watertight and kept in sound condition and good repair.

The door under the sink in the Busy Bee's classroom was completely broke and off the hinge.

R 400.8380 Maintenance of premises.

(5) There must be no flaking or deteriorating paint on interior and exterior surfaces or on equipment accessible to children.

The heating tube on the ground in the Bouncing Bears classroom had multiple areas of paint peeling off of it.

A corrective action plan was requested and approved on 02/10/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
