Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the on-site inspection, I observed children in care engaged in a variety of developmentally appropriate activities, including dramatic play, outdoor play and free play with blocks, cars, and trucks. I observed small and large group time which included counting, story time, and a nature activity. Also, I observed toileting, hand washing, meal service, and nap time. The child care staff

members' interactions with the children were positive and nurturing. They were attentive to the children's needs.

If you have any questions regarding the report, please contact licensing consultant, Alicia Wiggins, at (248) 369-7892 or wigginsa@michigan.gov. In the event that Alicia Wiggins is not available and you need to speak to someone immediately, please contact the Child Care Licensing Bureau at (517) 284-9730.

Technical Assistance	
<i>Rule Number</i>	<i>Rule</i>
R 400.8131(10)	All child care staff members who work directly with children are required to be trained in first aid and pediatric, child, and adult cardiopulmonary resuscitation (CPR) within 90 days of being hired. Prior to issuing a license to operate a child care center, and prior to the renewal of a license, the department shall verify that at least 50% of the child care staff members who work directly with children are currently certified in first aid and pediatric, child, and adult CPR. Each of these child care staff member's first aid and CPR certificates must be valid and retained on file in the center.
R 400.8152(9)	A center shall maintain a record as to the time and the amount of medication given or applied, with the exception of medications described in subrule (8) of this rule, on a form provided by the department or a comparable substitute approved by the department. One form per medication is required. The signature of the child care staff member administering the medication must be included.

R 400.8170(16)	The depth of the loose-fill surface material must be restored to its required depth when it has moved or becomes otherwise compromised.
R 400.8380(6)	All toilet room floor surfaces must be easily cleanable and constructed and maintained so as to be impervious to water.
