II. Purpose of Addendum

The previous reports did not accurately reflect the current room names, measurements and total available toilets and sinks; therefore I am completing this report to clarify the current rooms.

III. Methodology

10/21/2022 Inspection Completed on-site

IV. Description of Findings and Conclusions

The terms of the original license have been modified on August 29, 2017, and October 21, 2022.

The child care center consists of eight rooms.

- Eagle Room 1 (School-age) is 29ft. x 41ft., providing a total of 1,189 square feet. This accommodates a total of 34 children 5-12 years of age. The maximum group size for School-agers is 36 children.
- Eagle Room 2 (School-age) is 30ft. x 25ft., providing a total of 750 square feet. This accommodates a total of 21 children 5-12 years of age. The maximum group size for School-agers is 36 children.
- Cardinal Room (3-4 years of age) is 26ft. x 30ft., providing a total of 780 square feet. This accommodates a total of 22 children 3-4 years of age. The maximum group size for children 3 years to 4 years of age is 30 children.
- Toucan Room (3-4 years of age) is 30ft. x 27ft., providing a total of 810 square feet. This accommodates a total of 23 children 3-4 years of age. The maximum group size for children 3 years to 4 years of age is 30 children.
- Canary Room (12 months-2 ½ years of age) is 28ft. x 27ft., providing a total of 756 square feet. This accommodates a total of 15 children at 50 square foot per child 2 years of age. At 35 square foot per child this room accommodates 22 children 2 ½ years of age. The maximum group size for children 0-2 ½ years of age is 12 children. The maximum group size for children 2 ½ -3 years of age is 16 children. If there is a mixed age group in the room per R400.81812(7) ratio and group size is determined by the youngest child in the group.
- Road Runner Room (18-24 months of age) is 28ft. x 27ft., providing a total of 756 square feet. This accommodates a total of 15 children 18 months-24 months of age. The maximum group size for children 18 months-24 months of age is 12 children.
- Blue Bird Room (12-18 months of age) is 26ft. x 30ft., providing a total of 780 square feet. This accommodates a total of 16 children 12 months-18

months of age. The maximum group size for children 12 months-24 months of age is 12 children.

- Hummingbird Room (0-12 months of age) is 30ft. x 28ft., providing a total of 840 square feet. This room is divided into an activity area and crib area. This accommodates a total of 17 children 0-12 months of age. The maximum group size for children 0-12 months of age is 12 children.

Licensee designee understand that per R400.8182(7) If there are children of mixed ages in the same room or well-defined space, then the ratio and group size is determined by the age of the youngest child, unless each group of children is clearly separated, and the appropriate child care staff member-to-child ratios and group sizes, if applicable, for each age are maintained.

The total space is sufficient for a total center capacity of 135 children, 0-12 years of age.

There are a total of 9 toilets and 9 hand washing sinks available for child use. This supports the center's capacity.

The classrooms are furnished with a variety of developmentally appropriate equipment. There is an adequate amount of equipment to support the center's capacity.

On 09/17/2021, an environmental health inspection was completed as part of the renewal inspection. On 07/15/2019, a fire inspection was completed. On 10/20/2016, a lead risk assessment was completed.

Terms:

The center is approved for a total capacity of 135 children ages 0 months through 12 years.

The center provides transportation for before and after school care for school age children, as well as field trips. Swimming is not provided. The center does not prepare food.

V. Recommendation

I recommend the use of Eagle Room 1, Eagle Room 2, Cardinal Room, Toucan Room, Canary Room, Road Runner Room, Blue Bird Room, Hummingbird Room.
