II. Purpose of Addendum

Modification request was submitted to allow child use of the installed outdoor play equipment.

III. Methodology

06/20/2022 Contact Document Received-Playground Inspection

06/22/2022 Modification Request Received

05/6/2022 Inspection Completed-Onsite

IV. Description of Findings and Conclusions

There is a large fenced in outdoor play area located behind the building. The outdoor play area is separated into three separate play areas specific to age groups. During the renewal inspection visit on 5/16/2022, the playground area was observed to have in-ground play equipment on the three separate areas.

A playground inspection was completed on 06/20/2022 for all areas of the playground. The play area was found to be in compliance with the Consumer Product Safety Commissions (CPSC) 2010 Edition of the Handbook for Public Playground Safety.

V. Recommendation

I recommend use of the approved playground equipment on all three outdoor areas.
