III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

During the onsite inspection I observed children eating lunch, watching movies, and preparing for rest time. I observed positive child/caregiver interactions. The center is equipped with a variety of developmentally appropriate materials for children to use. I provided consultation on annual training hours and updating required trainings prior to expiration.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
