III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8112 Comprehensive background check; fingerprinting.

(2) An applicant or licensee shall do all of the following:

(b) Maintain a copy of the completed and signed form or forms for each individual entered into the child care background check system under the license.

During the onsite inspection on 10/24/2022, child care staff member (CCSM) James Schippa and Kayla Chapman did not have consent and disclosure forms onsite for review.

R 400.8128

Staff; volunteer; tuberculosis.

A center shall keep on file at the center evidence to verify that each child care staffs member and each volunteer who has contact with children at least 4 hours per week for more than 2 consecutive weeks is free from communicable tuberculosis (TB). Verification of TB status is required within 1 year before employment or volunteering.

During the onsite inspection on 10/24/2022, two out of two staff files reviewed did not contain proof of negative TB test results.

During the onsite inspection on I observed children playing outside on the playground and in the gym. I observed positive child/caregiver interactions. The site is equipped with a variety of developmentally appropriate materials for children to use. I provided technical assistance on required staff records. I provided consultation on required trainings prior to caring for children.

IV. RECOMMENDATION
