## **II. Purpose of Addendum**

On 06/28/2023, I received a modification request for to add school age children and afterschool care to the license as well as adding a classroom to the license. The facility is already licensed for school age children as well as afterschool care but due to some confusion on past addendum reports, a new addendum is being written.

## **III. Methodology**

06/28/2023 Modification request received  
06/29/2023 Inspection completed On-site

## **IV. Description of Findings and Conclusions**

The terms of the original license have been modified on 10/09/2002, 08/22/2007 and 06/29/2023

The previous terms of the license were  
Room 1 1380 square feet  
Room 2 690 square feet  
Room 3 1392 square feet  
Gym.

The name of the building these rooms are located in has changed. The building is now called the Michigan Building. The room names have also changed.

The center will now use the follow rooms:

Room 102 is a preschool classroom. This room is 60 ft. x 22 ft. providing a total of 1,320 square feet. This room can accommodate 37 children ages 2 ½ and older based on 35 square feet per child. Keep in mind that the maximum group size for children 3 years of age to 4 years of age is 30 children. The maximum group size for children 4 years of age and older is 36 children. If the center wants to utilize the full capacity of the classroom, it must be split into two well defined areas.

Room 103 is the tiny hearts classroom. This room is 30 ft. X 22.6 ft. providing a total of 678 square feet. This room can accommodate 19 children ages 2 ½ and older based on 35 square feet per child.

Room 104 will be the before and after care room. This room is 60 ft. x 22 ft. providing a told of 1,320 square feet. This room can accommodate 37 children ages 2 ½ and older. Keep in mind that the maximum group size for children 3 years of age to 4 years of age is 30 children. The maximum group size for children 4 years of age and older is 36 children. If the center wants to utilize the full capacity of the classroom, it must be split into two well defined areas.

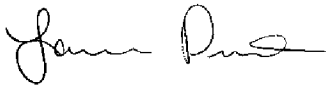

The gym is still approved for child use space.

The facility has a total of 11 toilets and 4 urinals as well as 5 handwashing sinks in the bathrooms that the children will be using. There are only enough sinks to support a capacity of 88 children. The centers capacity will remain at 88 children.

The facility will serve children ages 2 ½- 14 years of age. The facility will provide before and after care to children 3 years of age to 14 years of age.

**V. Recommendation**

I recommend approval for the child care center to use rooms 102, 103 and 104 as child use spaces and will have a school age and before and after care component. The centers capacity will remain at 88 children ages 2 ½ - 14 years of age.
