III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8380

Maintenance of premises.

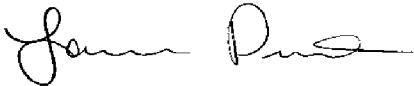

(4) Floors, interior walls, and ceilings must be kept in sound condition, good repair, and maintained in a clean condition.

On 4/12/2023, there is a wall in the girls bathroom that has paint peeling off. The area has a large plastic sheet taped up covering it. There is also paint peeling off and what appears to be water damage on the ceiling in the girls bathroom.

On 4/12/2023, during an onsite inspection, I observed three classrooms. The facility was participating in picture day. I was able to observe work time in two of the classrooms and clean up time and preparing for lunch in the third room. All staff interacted appropriately with all students present.

IV. RECOMMENDATION

Upon receipt of an acceptable corrective action plan, I recommend issuance of a regular license to this child care facility.
