III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the onsite inspection there were 12 toddlers present and 16 preschoolers present. There are only three classrooms that are being utilized at this time. The children completed a coloring activity where they colored Santa Clause. They also completed tracing activities. I provided technical assistance to Mrs. Walker regarding the excessive amount of materials that have remained on the premises from a

previous owner. Mrs. Walker said she is going to clear it out. Mrs. Walker has been on a six month provisional license and it ends on 12/22/2021.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
