III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8128

Staff; volunteer; tuberculosis.

A center shall keep on file at the center evidence to verify that each child care staff member and each volunteer who has contact with children at least 4 hours per week for more than 2 consecutive weeks is free from communicable tuberculosis (TB). Verification of TB status is required within 1 year before employment or volunteering.

Two of eight staff files reviewed did not have documentation on file at the center to verify that they were free from communicable tuberculosis.

IV. RECOMMENDATION

Upon receipt of an acceptable corrective action plan and environmental inspection with A rating, I recommend issuance of a regular license to this child care center.
