III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

An on-site inspection was completed at Bates Elementary on 11/03/2022. I observed the caregivers interact appropriately with the children. The children at the after- school program participated different activities (i.e., games, coloring, lego- building, etc.) table, that were set up at different tables. The children completed homework, ate

snack and completed activities. The center is equipped with a variety of appropriate equipment. Consultation was provided regarding licensing forms and fire/tornado drill log.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
