III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

On 04/18/2023, I completed an on-site inspection at Bibleway II. I observed the caregivers interact appropriately with the children. The center is equipped with a variety of developmentally appropriate equipment.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
